

UJJWAL SHARMA

Forward deployed engineer building AI voice agents at Lemu AI.

DELHI, INDIA HELLO@CODEUJJWAL.IN LINKEDIN.COM/IN/CODEUJJWAL GITHUB.COM/CODEUJJWAL CODEUJJWAL.IN

SUMMARY

Ujjwal Sharma is a forward deployed engineer in Delhi with 5+ years across fintech, ERP and field apps. He builds AI voice agents at Lemu AI and AI workflows at Asian Footwears. Known for embedding with business teams, finding the work that costs the most time, and shipping production software fast.

EXPERIENCE

Lemu AI JUL 2026 - NOW • DELHI

BUILDER (2026 →)

Lemu lets businesses build AI voice agents that understand context, take actions and follow up. Teams design the conversation visually, connect their data and watch every call from first prompt to closed call.

- **Visual workflow builder:** Design a conversation with start, agent and end nodes.
- **Context from your stack:** CRMs, APIs and tables, plus Slack, Jira, HubSpot and Salesforce.
- **Memory across calls:** Agents carry context from one conversation to the next.
- **Watch every run:** Live monitoring and full transcripts for every call.

Asian Footwears JAN 2025 - NOW • GURUGRAM

FORWARD DEPLOYED ENGINEER (2026 →) • SENIOR SOFTWARE ENGINEER (2025)

Embedded with business and product teams to turn operational problems into production software. In 2026 the work moved to AI applications and agentic workflows.

- **Udyog:** Vendor app on iOS and Android for bidding on material requirements.
- **SalesTrack:** Field sales with GPS tracking, attendance and order management.
- **Tashan:** Distributor portal on mobile and web: orders, transactions, schemes.
- **ERP + reports:** User and role management, attendance and 20+ features, plus company-wide analytics.

Ruptok Fintech OCT 2022 - DEC 2024 • DELHI

SOFTWARE ENGINEER (2022 - 24)

Led frontend across accounting, invoicing and payments SaaS, and managed a team of four frontend engineers on planning, reviews and delivery.

- **Lender platform:** Loan operations for a book worth ₹400+ crore.
- **Jewellery marketplace:** Buy, sell and lend gold, with 1,000+ products listed.
- **Fracto Pay:** Corporate payments: UPI, cards and net banking in one flow.
- **AI OCR:** Pulls structured data out of business documents.

Squareware NOV 2021 - SEP 2022 • REMOTE

FRONTEND DEVELOPER (2021 - 22)

Built the habits everything after rests on: reusable parts, predictable state and tests that catch regressions before users do.

- **Component libraries:** Modular frontend architecture for faster, consistent delivery.
- **Redux:** State management for complex, data-driven workflows.
- **Jest + Cypress:** Unit and end-to-end testing practice across the app.

RedPositive

JUN 2021 - NOV 2021 · DELHI

FRONTEND INTERN (2021)

Six months shipping frontend features to production, debugging live issues and running regression tests.

- **Production features:** Frontend work on live web applications.
- **Stability:** Debugging and regression testing on every release.
